FALL RIVER, Dec. 20.

The steamer Baltic put into Provincetown yesterday morning, at 6 o'clock, for coal. She experienced very heavy weather all the passage.

The locomotive of the morning train from New Bedford for Boston, ran off the track, five miles from New Bedford. No one hurt.

NORFOLK, Dec. 28th.

An examination was made of the steamship Ohio this morning, and the surveyors have reported her safe, with slight repairs to her engines, to proceed to New York. The dry dock here is not large enough to receive her. Her captain is still awaiting orders.

NEW ORLEANS, Dec. 22.

The steamship Philadelphia, Capt. Pearson, from Chagres, has arrived, after a passage of six days. She brings three hundred passengers. There were many still waiting on the wharves.

The steamers Antelope and Panama had left Panama with a large number of passengers.

MONUMENT TO GILBERT STUART.

The artists of Boston are interesting themselves in raising funds for a monument over the remains of the late Gilbert Stuart, the renowned portrait-painter. We are no friends to monuments. To our mind it matters little, after the corer's duty is done, where the east-off body is deposited; whether in mid ocean or in a costly tomb in Mount Auburn. It is not with graves and charnel houses that we would associate our recollections of the departed friend or great man; but rather with the good thoughts and deeds, that were the offspring of his imperishable part.

A fine portrait of Stuart, or an alcove, devoted to works of art, dedicated to his memory, in some public institution, would be better than any pile of granite or marble. Let the funds collected be appropriated to a productive, beneficent monument like this; and we will venture much upon the prediction that it will be more grateful to Stuart than any sepulchral commemoration of his artist career in this world.—Boston Transcript.

A Shower of Compliments. "How fortunate I am in meeting a rain bear in this storm," said a young lady, who was caught in a shower the other day, to her beau of promise who happened along with an umbrella.

"And I," said he gallantly, "am as much rejoiced as the poor Laplander when he has caught a rain bear."

A SEVERE, BUT A JUST SENTENCE.—Sometime last summer, a stranger in Buffalo took a cab for a steamer landing, and was stopped halfway, the cabman taking advantage of his ability to eject the passenger from the vehicle, and demanding \$5 for his half-way passage. The man demurred. The cabman called to his assistance a fellow ruffian, the stranger was knocked down, and was compelled to pay the \$5 charged by the driver, and \$5 additional to the driver's accomplice in this villainy. The man did not stop there but reached them through the courts; the consequence was, the sentence of Thomas Fitzgerald, the cabman, for highway robbery, state prison ten years, and Livingston Sheldon, his accomplice, for highway robbery, state prison ten years.

WE stated a few days since that J. A. B. Ayer had been elected Mayor of the city of Lowell. We should have said that it was Dr. J. C. Ayer, whose pharmaceutical reputation has gone the round world over for his preparation of the Cherry Pectoral.—Bangor Whig and Courier.

A WIFE WORTH HAVING. Three belles in Paris Ky, went to a gentleman's house in that place and inquired of the gentleman's wife where her husband was, avowing their purpose to tie him up and whip him, for some alleged offence. She directed them to his shop, and followed unperturbed. They attacked her husband, when she dealt one of them a blow with a mallet, dislocating his shoulder, broke another one's skull, and bruised the one who was struggling with her husband so that he and the other two had to be packed home. She weighed less than 120 pounds.

TUESDAY-MORNING, DEC. 28, 1880.

WE trust that all Whigs, whose names are registered, but whose taxes are not yet paid, will attend to that important duty before 12 o'clock to-night. Those who desire to vote on the election of any officers next year, must pay their Registry Tax some time during this day or evening; and as there may be important elections during the coming year, we hope that all Whigs will attend to this important duty in season. Remember, this is the last day.

CHINA.—By the census of 1710 the entire population of the empire was only 27,241,129, about equal to the present population of the United States. In 1753 it had increased to 103,050,060. In 1793 the estimate of the population given to Lord Macartney was 333,000,000. By the census of 1812, probably the most reliable of any, it was 262,447,183, and the most prevalent estimate at this day is four hundred million, or nearly one half of the whole population of the globe. Thus in 140 years the population of China has augmented from 27 million to four hundred million. If the people of the United States should be restrained, and held back from the fearful doom to which in their madness some of them seem to be rushing; if they remain true to themselves and to the memory of their ancestors, there can be no reason to doubt that 140 years hence, that is in the year 1950 these United States will contain seven hundred million intelligent, educated, happy freemen; and we fondly hope that then the surface of her almost boundless territory stretching from Maine to the Pacific Ocean, will be dotted all over with Churches, schoolhouses, colleges, and the happy homes of men, free men and brave men, who shall know how, and have the courage and the wisdom to sustain, to cherish and transmit their rich inheritance to still later generations.

Our population is uniformly doubled every twenty years.

The Ladies of Zion Church will hold a Fair at the new Lecture Room, next to the Church, commencing this evening, and continuing through to-morrow, day and evening. A great variety of very beautiful articles, useful and ornamental, many of which are very appropriate for New Years presents, particularly for children, will be offered for sale. The proceeds of the Fair will be appropriated toward the liquidation of the debt of the Church; we trust that the praiseworthy efforts of the Ladies will be crowned with much success, by the liberal patronage of the citizens. An examination of all the beautiful articles will well repay a visit to the Fair.

The sleighs were drawn very rapidly through the streets yesterday; where oh, where was the terrible Police? Echo answers where?

NAVAJO TRIBE OF INDIANS.

MILLARD FILLMORE,
PRESIDENT OF THE UNITED STATES
OF AMERICA.

TO ALL AMERICAN CITIZENS WHOSE INTERESTS ARE AFFECTED BY THIS TREATY.

Whereas, a treaty was made and concluded in the valley of Chiricahua, on the ninth day of September, one thousand eight hundred and forty-nine between the United States of America, by John M. Washington, Governor of New Mexico, and Lieutenant Colonel commanding the troops of the United States in New Mexico, and James S. Calhoun, Indian agent, representing the United States, and Mariano Martinez, head chief, and Chapique, second chief, of the Navajo tribe of Indians:

And whereas, said treaty, having been submitted to the Senate for its constitutional action thereon, the Senate did, on the ninth day of September, one thousand eight hundred and fifty, advise and consent to the ratification of the same; which treaty is in the words following:

TREATY BETWEEN THE UNITED STATES OF AMERICA AND THE NAVAJO TRIBE OF INDIANS.

The following acknowledgments, declarations, and stipulations, have been duly considered, and are now solemnly adopted and proclaimed by the undersigned: that is to say, John M. Washington, Governor of New Mexico, and Lieutenant Colonel commanding the troops of the United States in New Mexico, and James S. Calhoun, Indian agent, residing at Santa Fe, New Mexico, representing the United States of America, and Mariano Martinez, head chief, and Chapique, second chief, of the Navajo tribe of Indians.

1. The said Indians do hereby acknowledge, that by virtue of a treaty entered into by the United States of America and the United Mexican States, signed on the second day of February, in the year of our Lord eighteen hundred and forty-eight, at the city of Guadalupe Hidalgo, by N. P. Trist, of the first part, and Luis G. Cuevas, Bernardo Couto, and Miguel Atristain, of the second part, the said tribe was lawfully placed under the exclusive jurisdiction and protection of the Government of the said United States, and that they are now, and will forever remain under the aforesaid jurisdiction and protection.

2. That from and after the signing of this treaty, hostilities between the contracting parties shall cease, and perpetual peace and friendship shall exist; the said tribe hereby solemnly covenants that they will not associate with, or give countenance or aid to, any tribe or band of Indians, or other persons or powers, who may be, at any time at enmity with the people of the said United States; that they will remain at peace, and treat honestly and humanely all persons and powers at peace with the said States; and all cases of aggression against said Navajos by citizens or others of the United States, or by other persons or powers in amity with the said States, shall be referred to the Government of said States for adjustment and settlement.

3. The Government of the said States having the sole and exclusive right of regulating the trade and intercourse with the said Navajos, it is agreed that the laws now in force regulating the trade and intercourse, and for the preservation of peace with the various tribes of Indians under the protection and guardianship of the aforesaid Government, shall have the same force and efficiency, and shall be as binding and as obligatory upon the said Navajos, and executed in the same manner as if said laws had been passed for their sole benefit and protection; and to this end, and for all other lawful purposes, the Government of New Mexico, as now organized, or as it may be by the Government of the United States, or by the legally constituted authorities of the people of New Mexico, is recognized and acknowledged by the said Navajos; and for the due enforcement of the aforesaid laws, until the Government of the United States shall otherwise order, the territory of the Navajos is hereby annexed to New Mexico.

4. The Navajo Indians hereby bind themselves to deliver to the military authority of the United States in New Mexico, at Santa Fe, New Mexico, as soon as he or they can be apprehended, the murderer or murderers of Micanite Garcia, that said fugitive or fugitives from justice may be dealt with as justice may decree.

5. All American and Mexican captives, and all stolen property taken from Americans or Mexicans, or other persons or powers in amity with the United States, shall be delivered by the Navajo Indians to the aforesaid military authority at Jemez, New Mexico, on or before the 9th day of October next ensuing, that justice may be meted out to all whom it may concern; and also, all Indian captives and stolen property of such tribe or tribes of Indians as shall enter into a similar reciprocal treaty, shall in like manner, and for the same purposes, be turned over to an authorized officer or agent of the said States by the aforesaid Navajos.

6. Should any citizen of the United States, or other person or persons subject to the laws of the United States, murder, rob, or otherwise maltreat any Navajo Indian or Indians, he or they shall be arrested and tried, and upon conviction, shall be subjected to all the penalties provided by law for the protection of the persons and property of the people of said States.

7. The people of the United States of America shall have free and safe passage through the territory of the aforesaid Indians, under such rules and regulations as may be adopted by authority of the said States.

8. In order to preserve tranquility, and to afford protection to all the people and interests of the contracting parties, the Government of the United States of America will establish such military posts and agencies, and authorize such trading houses, at such time and in such places as the said Government may designate.

9. Relying confidently upon the justice and the liberality of the aforesaid Government, and anxious to remove every possible cause that might disturb

their peace and quiet, it is agreed by the aforesaid Navajos that the Government of the United States shall, at its earliest convenience, designate, settle, and adjust their Territorial boundaries, and place and execute in their Territory such laws as may be deemed conducive to the prosperity and happiness of said Indians.

10. For and in consideration of the faithful performance of all the stipulations herein contained, by the said Navajo Indians, the Government of the United States will grant to said Indians such donations, presents, and implements, and adopt such other liberal and humane measures, as said Government may deem meet and proper.

11. This treaty shall be binding upon the contracting parties from and after the signing of the same, subject only to such modifications and amendments as may be adopted by the Government of the United States; and, finally, this treaty is to receive a liberal construction, at all times and in all places, to the end that the said Navajo Indians shall not be held responsible for the conduct of others, and that the Government of the United States shall so legislate and act as to secure the permanent prosperity and happiness of said Indians.

In faith whereof, we the undersigned, have signed this treaty, and affixed thereto our seals, in the valley of Chiricahua, this ninth day of September, in the year of our Lord one thousand eight hundred and forty-nine.

DANIEL WEBSTER, Sec'y of State.

PROCLAMATION.
January 18, 1840.

BY THE PRESIDENT OF THE UNITED STATES.

A PROCLAMATION.

Whereas by an act of the Congress of the United States of the fourteenth of August, eighteen hundred and forty-eight, entitled "An act to establish the Territorial government of Oregon," the President of the United States is authorized to establish such ports of delivery in the collection district created by that act, not exceeding two in number, (one of which shall be located on Puget's Sound) as he may deem proper:

Now, therefore, I, ZACHARY TAYLOR, President of the United States of America, do hereby declare and proclaim the ports of Nequally (on Puget's Sound) and Portland, in the collection district of Oregon, in the Territory of Oregon, to be constituted ports of delivery with all the privileges authorized by law to such ports.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this tenth day of January in the year of our Lord one thousand eight hundred and fifty, and of the independence of the United States the seventy-fourth.

By the President:
Z. TAYLOR.

J. M. CLAYTON, Sec'y of State.

VIRGINIA WASHINGTON MONUMENT.

In a letter recently received from Rome, the following mention is made of the Virginia Washington Monument—

"Crawford is again at work with all his old ardor and enthusiasm, and even carries his labors far into the night. One of his sketches for the Washington Monument is already finished. He has taken Patrick Henry as his first subject, and an exquisite graceful statue has been made of Virginia's great orator."

LIGHT LIGHT
Manufactured by the Light and Heat
MACHINE PATENT CO.

THIS is a new invention, recently introduced, I have very extensively used by the public. Mr. Marsh is constantly receiving (both at home and from abroad,) the very highest testimonials of the true merit and great superiority of his Oil, over everything before used for light. Among them we select the following:

MARSH'S PATENT OIL.—This is the name has to a newly-invented Oil, for producing light, which has just been introduced by Messrs.

Marsh. Having tried it, you are probably
satisfied from experience, and do not hesitate to
use it as a high order of merit. It is entirely free
from grease or smell while burning, and is equal
to the common kerosene of almost all lamp
fluids, that of explosion. It gives a beautiful
steady light, is much heavier than oil, and
is less. For a slight expense, common glass
lamps may be fitted with new tubes, and the oil

we recommend a trial to those who would ob-
tain a beautiful light. — [Boston Journal.]

THE greatest labor-saving article yet discovered. By its use, warping machines and boards are saved with, and not one quarter of the labor is required to do the washing of a family.

the expense is not more than that of the soap
regularly used, and besides this it will be seen that
great wear and tear of clothing consequent upon
old method of hard rubbing upon laund, and
use of the pounding barrel, is wholly avoided,
and *unsearing* is thus made. It is emphatically
a female's friend.

**WEBSTER'S QUARTO
DICTIONARY**
Webster's American Dictionary may now be
recommended, without reserve or qualification, as
the best extant."—*Presidential Oration, of the Washington
Society, December, 1847.*
"I have always considered Dr. Webster's work
as a bibliography as surpassed in fullness and ac-
curacy by none in our language."—*President Wey-
mouth, of Bowdoin.*

of *British Chivalry, Providence, R. I.*
I have been in the habit of using Dr. Web-
b's Dictionary for several years past, in pre-
ference to all others, because it far excels them all,
as I know, in giving and defining scientific
terms."—*Pres. Hitchcock, of Amherst College.*
My judgement and feelings are most heartily
permanently engaged in doing all that I can
to use Webster the standard whenever the Eng-
lish is spoken, as it deserves to be; moreover, it
will be the "Professor, Street, of Cambridge."

Dr Webster's great work is the best. Dictionary of the English language."—*Lon. Morn. Chron.* The *London Literary Gazette* of April 1st, speaks in the following just terms:—"A noble monument of erudition and indefatigable research." We rejoice that it finds fair to become the

tion Dictionary to be used by the numerous
thousands of people who are to inhabit the United
States. Signed by 144 Members of Congress.

GOOD CHANCE FOR A BAKER.
FOR SALE a lot of land, containing 101.2
acres of good land situated in the town of
Winchester, Worcester county, Mass. It is

in 31-2 miles distance from four very thriving manufacturing villages; two lying at the north and the other two south. It is one of the best opportunities for establishing a Bakery, being no Bake-house within 10 miles, the whole piece of land is in a corner lot containing 12 acres, there is an application for one, and wishing to reserve half an acre for myself would sell the remaining 10 1-2 acres at the price of four hundred dollars, one half the

ment in cash, the balance may stand for a number of years if desired; the lot is well walled on all sides, on the other side is a strip of young land, some trees of good size, probably about 100 years of age in this part. There is fine cane growing on the front, the land is very convenient for use as a pasture, and for mowing for horses and cows; one part is watered by a spring. There is also a large number of bearing apple trees upon the lot. Fuel is very low, the best of

and hard wood is sold there from \$2 to \$3 a
